Supervisors Get After Road Boards

Not Satisfied With the Way Things Are Being Done by Several of the Outside Boards-Meet Next Wednesday.

A meeting of the Board of Supervisors was held last night. A number of matters were considered and discussed by the Board, the meetg being quite protracted in view of the minor subjects acted upon. I weas presented a report of the committee on roads and bridges, regarding the work done by his department during the month of August. The statement was not complete as there were various bills and some other items to be included. It was found that there had been paid out \$7,106.71 out of an appropriation of \$8,000 made for the month of August. Lucas stated that it was proposed to put a double force of men as work at the Kalibi quarry and shut down the Judd street quarry. The stone from the latter place was not hard enough for the work of paying Queen street. Reference was also made to turning out a number of mules for the department to pasture in Kalihi on some government land. It was stated that this would save the county considerable in the way of feed bills, until the animals would be required.

Adams proceeded to jump the report. He asked to see the document and after glancing over the figures said that he did not think hat the wish of the Board had been followed in the matter. Adams aid that it least three-quarters of the items of improvement made by the department had not been contemplated by the Board. There were o many small items that when footed up they would almost eat up the appropriation. He said he thought the matter should be investigated and the Board should ascertain why there had been so much expense, He called for the resolution passed by the Board authorizing the expenditure of the appropriation for that month. It was found from reading the resolution, that there had been no limitation or qualification set on the work except that the Queen street, Kuakini and Houghailing road work should be performed in the order named, which was eing done. Adams then withdrew his objections and read some figmes regarding the finances of the county in which it was shown that there was \$31,530 secured by the county during the month of August and that the warrants excluding an item of \$40 for a harness, amounted \$30.821.51. There was still \$1,400 left for the July receipts. During his statement Lucas had included an item of \$1,074 which appeared to have been incurred by the Koolaupoko road department in April previous to the county coming into existence. After some discussion it was decided to refer this item to the committee of roads and bridges for a further report.

Adams for the police committee brought up the matter of the payment of police informers. A communication from Sheriff Brown on this subject was read. Brown asked that a change be made so as to enable him to pay the informers at least twice a month. Under the present conditions he had to advance the money to them out of his private funds or else keep the men waiting. Chairman Smith thought that there should be a change and suggested making a special appropriation each month for such work. W. T. Rawlins who had been deputy high sheriff under the Henry regime told, at the request of Adams, of the necessity of paying these informers promptly as it was by this means that the police department was kept up to a proper state of efficiency. Vouchers aggregating \$163 for such payment made by the high sheriff and also one for \$62.50 for the expenses of the horseshoeing examinations of Japanese paid for by the sheriff were approved.

Considerable discussion ensued over the matter of the curbing of streets by property owners. Lucas called attention during his remarks to the fact that the road at Kuakini street had been macadamized and that the only thing now required was that there should be curbing added. Lucas was of the opinion that the property owners should be

made to put down the curbing. Superintendent Holloway had not enforced the law in this respect. The trouble was that the money which was received from property where under such cases was paid into the treasury and did not find Reid has leased the late Earl Cowper's its way back to the public works department. Lucas expressed the opinion that the Board should pass an ordinance on this matter so that hill. Bedfordshire, and Mr. Reid and

the action could be taken against the owners. Archer for the sanitary committee presented a report recommending months. The Ambassador has secured Hawaiian Agricultural Company, Ono- il at a new system in the manner of paying employees of the garbage, the property for the term of his stay in Aug. 4-Alameda.......San Francisco Sugar Company, Henoma Sugar (department be followed. The report favored paying the men on the England and Company, alluku Sugar Company, basis of \$45 a month as at present, but figuring on the scale of \$1.75 winter months there, as he is satisfied that the fogs and other discomforts of Ookala Sugar Plantation Company, a day, not excluding Sundays. If men worked Sundays, they were to the London winter would seriously af-Le paid extra at the same rate. The report also favored the employ- feet his health. Planters' Line Shipping Company. | Brent of men in the department straight through each month and not

> Adams wanted to know whether this was a good system, and if good for the garbage department should not be used for other department. Archer said that men did not secure living wages according to the system that was being followed. Archer said that the plantations were willing to pay from \$35 to \$40 to good men as teamsters with house and wood free, but men preferred apparently to remain in the city,

> Smith imquired if it were wise to encourage men to remain in the city when they could secure employment on the plantations where help was required. On motion of Archer, seconded by Lucas, the report placg the new system in operation for the month of August and hereafter was adopted.

An electric light in Pua lane was ordered. Deputy Attorney Gencral Peter's opinion to the effect that the Dapid Transit Company was responsible for repairs t othe road along its Kahauiki extension was miles of walks. A magnificent banread. From Treasurer Trent came a pathetic appeal from A, Kolinsky queting hall stands in the grounds. asking for employment. Trent had passed the buck in this matter to the supervisors. There was no work to give so the communication

Considerable discussion arose over the matter of a disposition on the afternoon at 2 oclock. It is hoped that
